July 11, 2018

Ms. Kathleen O'Keefe
Chemours Product Sustainability Director
The Chemours Company
1007 Market Street, 13118
Wilmington, DE 19899

Dear Ms. O'Keefe:

As leaders in the City of Wilmington and New Hanover County concerned with the water quality of the Lower Cape Fear River, we think it is important to continue the dialogue and outreach over the status of efforts to remove GenX and related per-fluorinated compounds from our drinking water. Therefore, we are again inviting your Company to meet directly with our citizens, in our community, to discuss progress made and future strategies to clean up our drinking water supply.

In order to facilitate such a meeting, we are willing to make available a City or County facility to you for this purpose.

We look forward to hearing from you in a timely fashion.

Sincerely,

A handwritten signature in black ink that reads "Woody White".

Wood White
Chairman
New Hanover County Board of Commissioners

A handwritten signature in red ink that reads "Bill Saffo".

Bill Saffo
